SOLUM 360

ARGB LIQUID COOLER

Package Content

① 
360 liquid cooler **X1**

② 
120mm fan **X3**

③ 
Intel115X/17XX/1851
backplate **X1**

④ 
Intel mount plate **X2**

⑤ 
AMD mount plate **X2**

⑥

AMD mount
buckle adaptor **X2**

⑦

Intel 115X/1200
plastic sleeve **X4**

⑧ 
Intel 17XX/1851
plastic sleeve **X4**

⑨

Thumbscrew **X4**

⑩

Radiator screw **X12**

⑪ 
Fan rod **X12**

⑫ 
Thermal grease **X1**

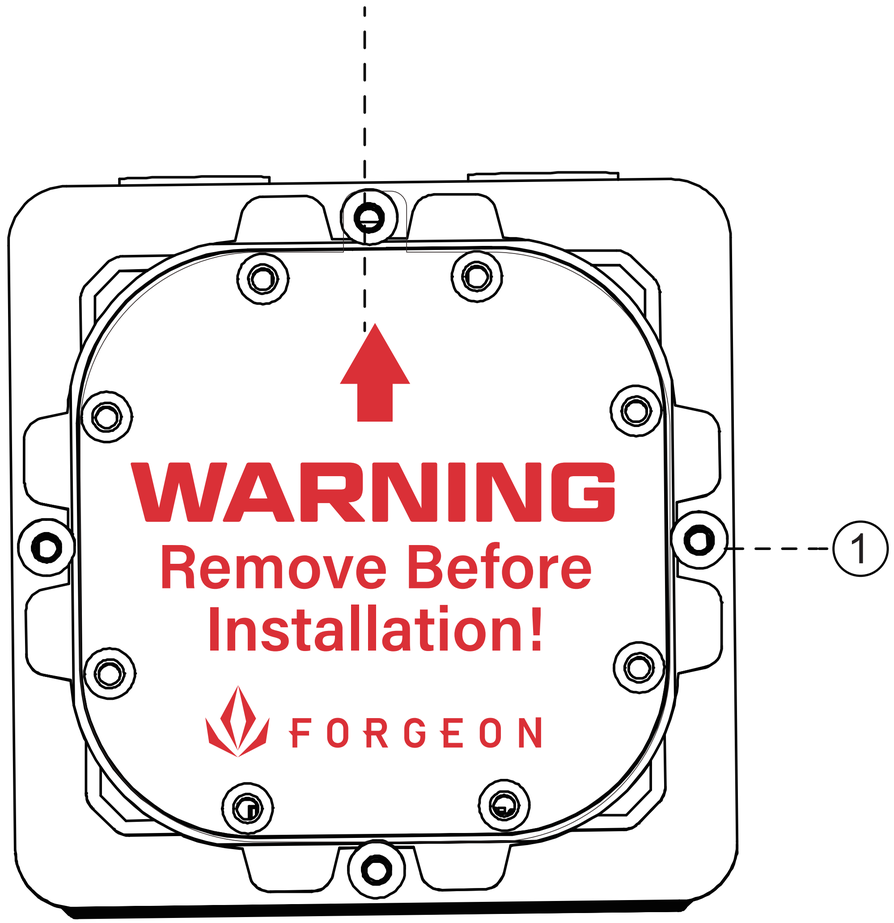
⑬

Thermal grease
applicator **X1**

⑭ 
Fan adapter cable **X1**

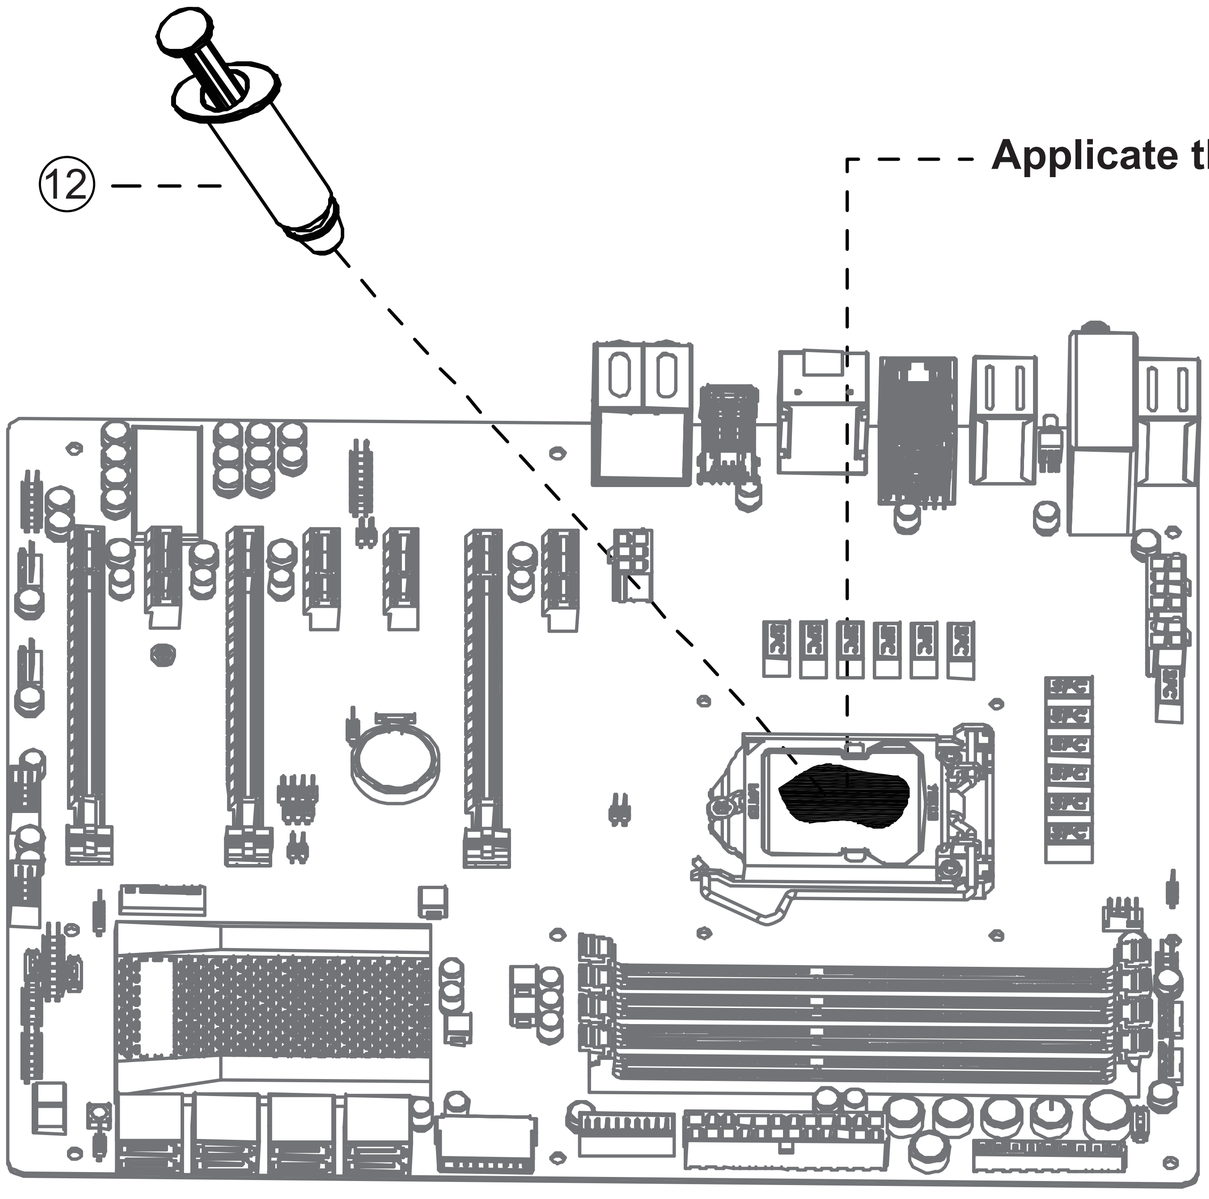
Warning!

Please remove the protective film on the copper base before installation.



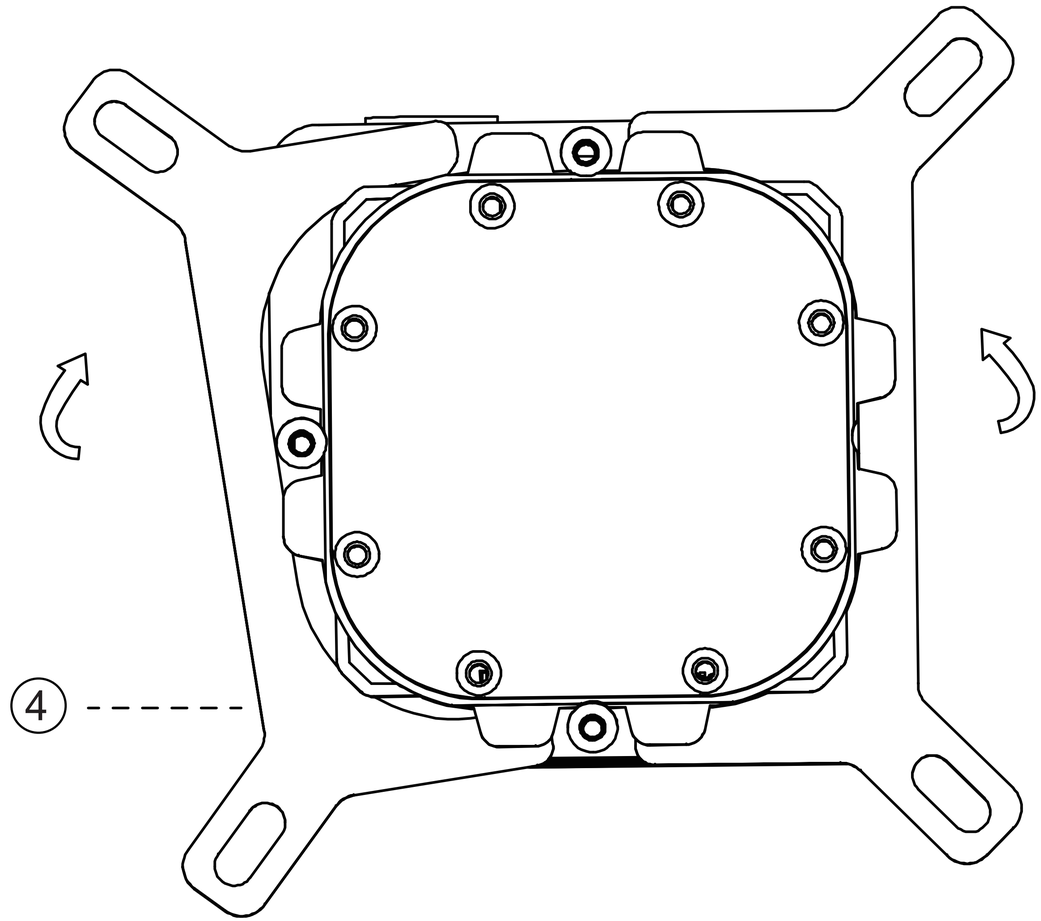
Installation instructions:
Please remove the protective film on the copper base before installation.

1 Intel/AMD motherboard



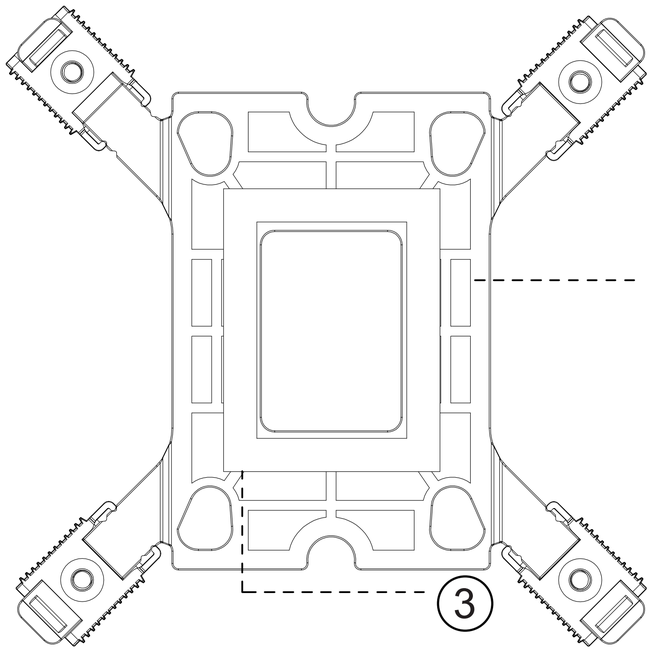
Installation method:
1.Applicate some thermal grease on the CPU.
2.Spread the thermal grease evenly with the applicator.

2 Intel motherboard



Installation method:
Align the mount plate with the hole on one side of the water block and push and fit the other end of the plate with the water block.

3 Intel 115X/1200/17XX/1851 motherboard

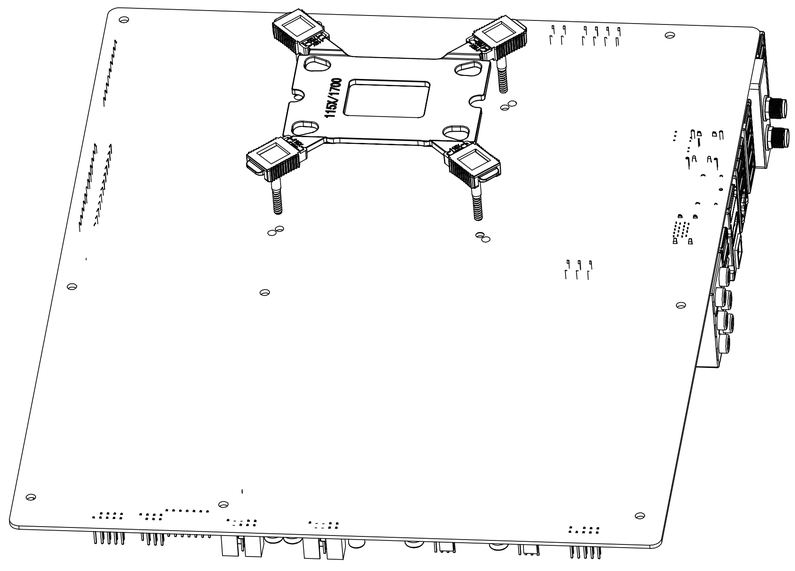


Remove the film on the backplate.

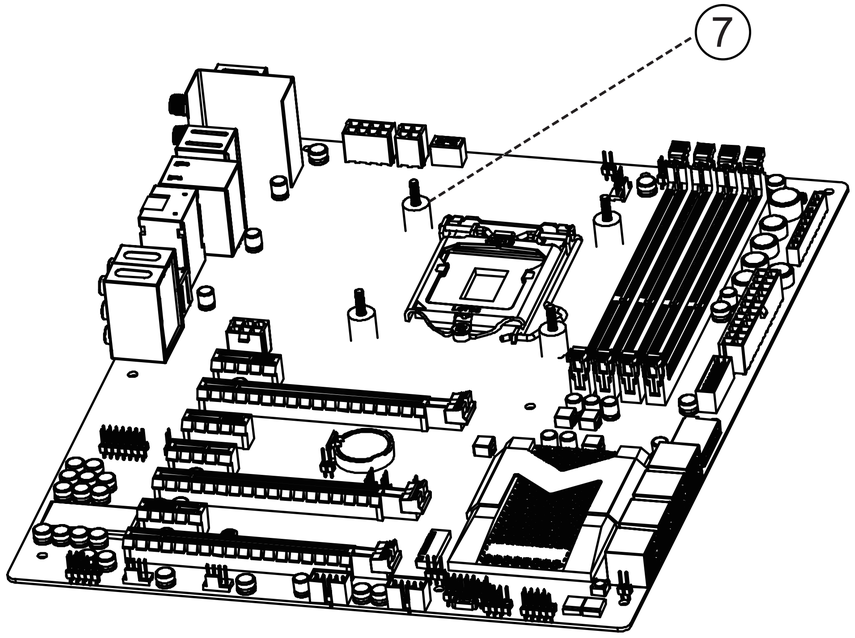
Installation method:
Remove the film on the backplate.

Installation method:
1.Align the rods with the holes in the motherboard.
2.Insert the rods through the holes for CPU fan.

LGA 1851 is the same as LGA 1700.

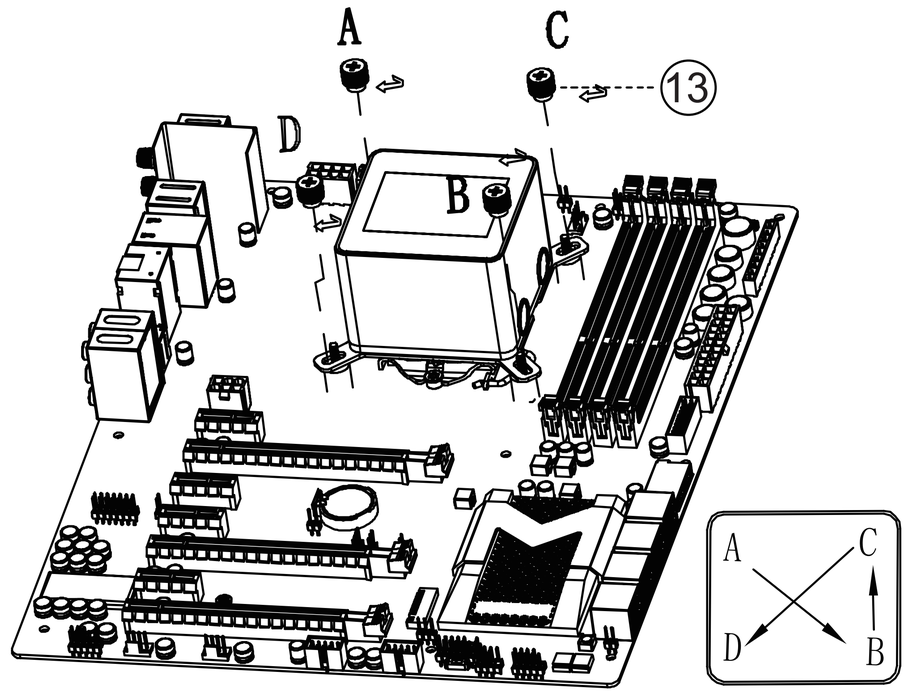


4 Intel 115X/1200 motherboard

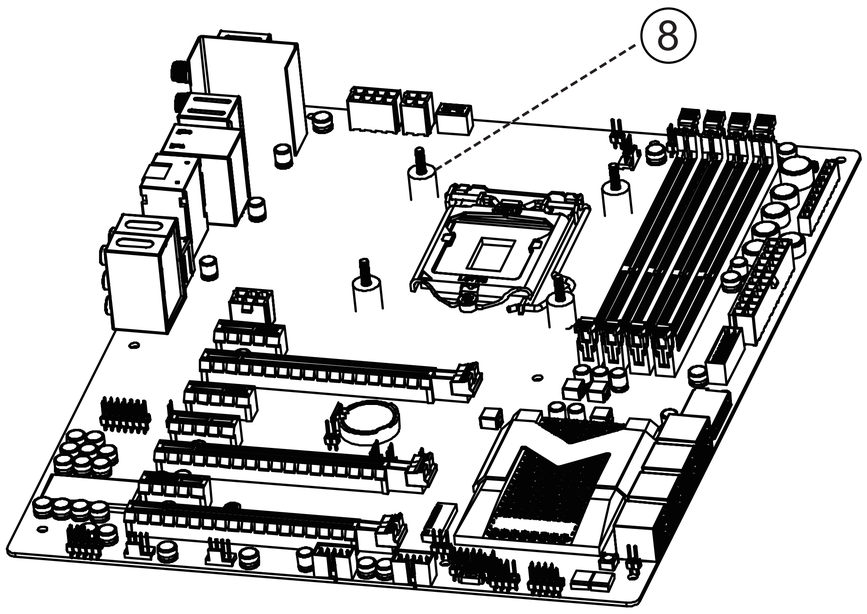


Installation method:
Put Intel 115X plastic sleeves onto the rods.

Installation method:
1.Put the water block on the CPU as picture shows.
2.Tighten the water block with 4 thumbscrews in A-B-C-D sequence as picture shows.



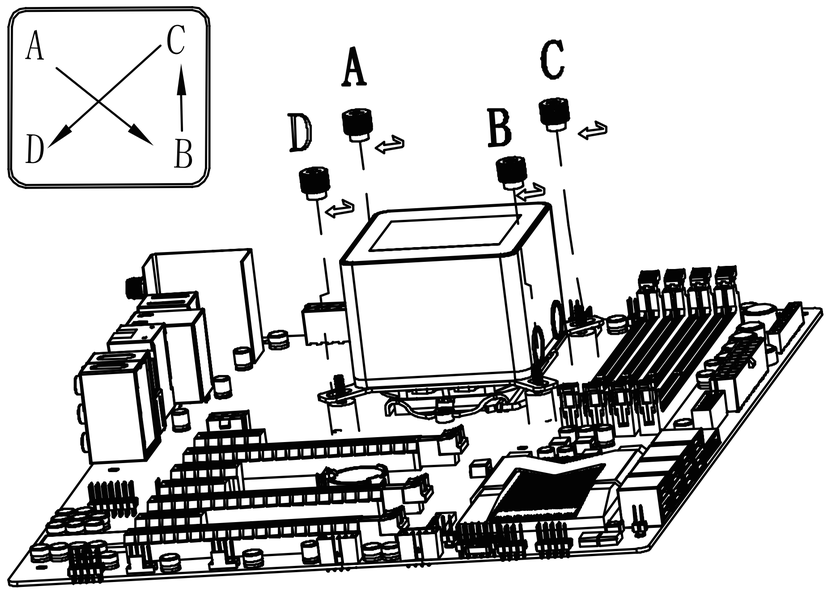
5 Intel 17XX/1851 motherboard



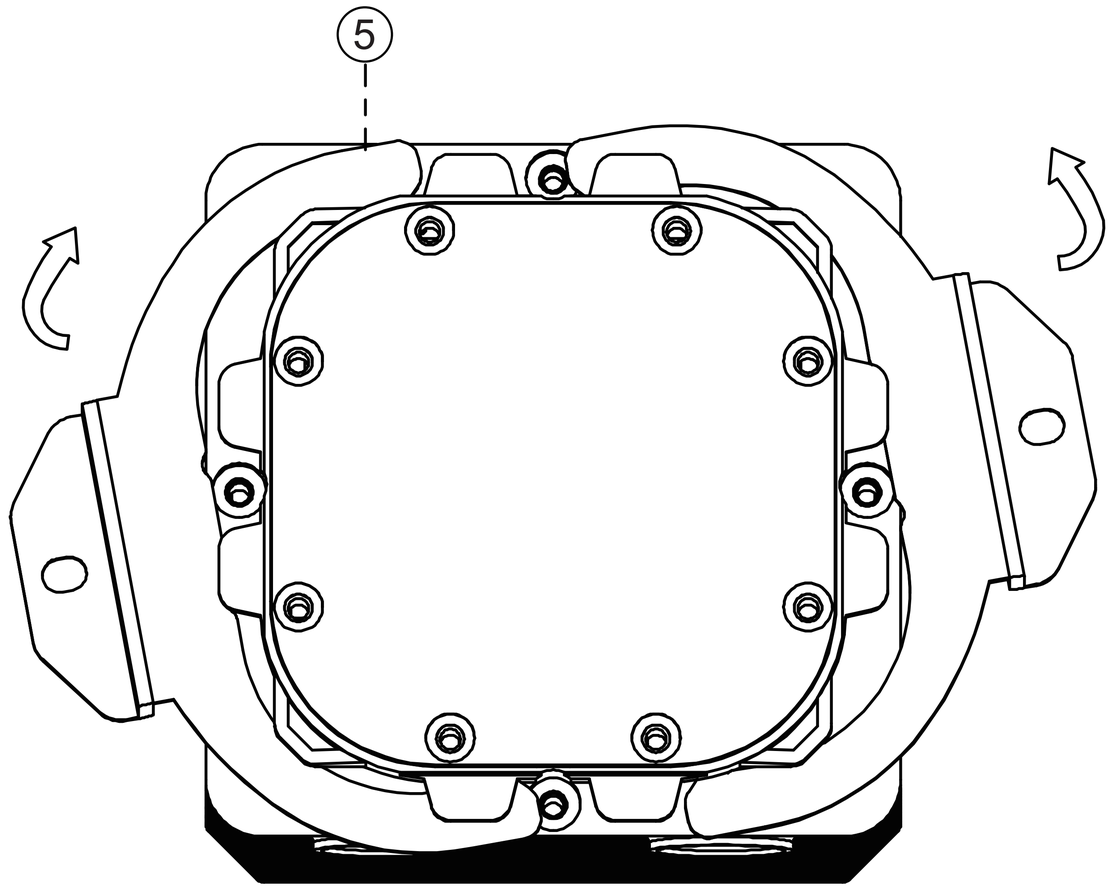
Installation method:
Put Intel 17XX/1851 plastic sleeves onto the rods.

Installation method:
1.Put the water block on the CPU as picture shows.
2.Tighten the water block with 4 thumbscrews in A-B-C-D sequence as picture shows.

LGA 1851 is the same as LGA 1700 .

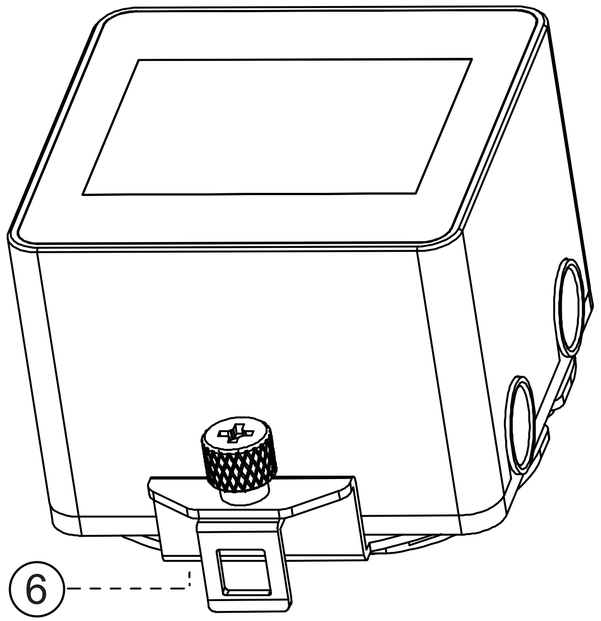


6 AMD motherboard



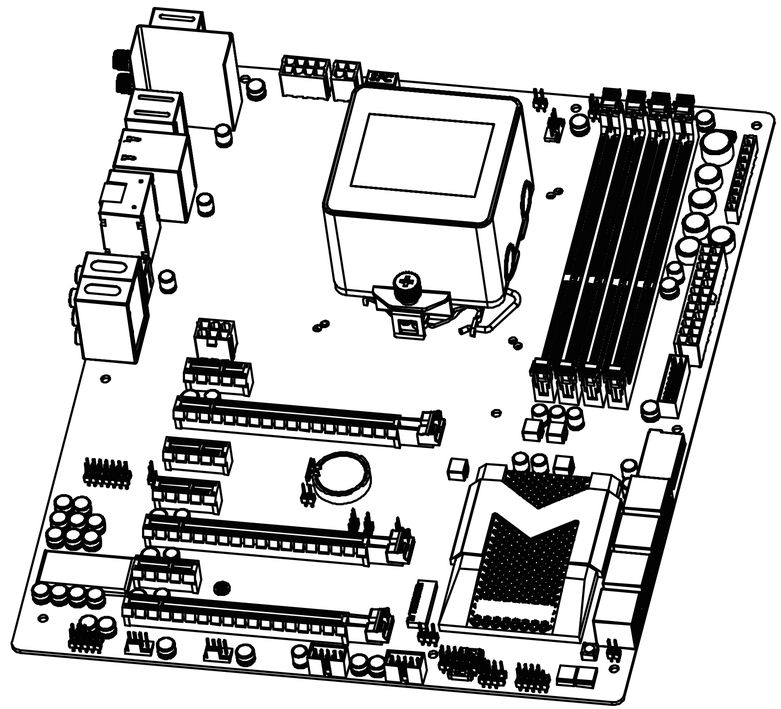
Installation method:
Align the mount plate with the hole on one side of the water block and push and fit the other end of the plate with the water block.

7



Installation method:
Put the AMD mount buckle adaptor and thumbscrews on the mount plate (untightened).

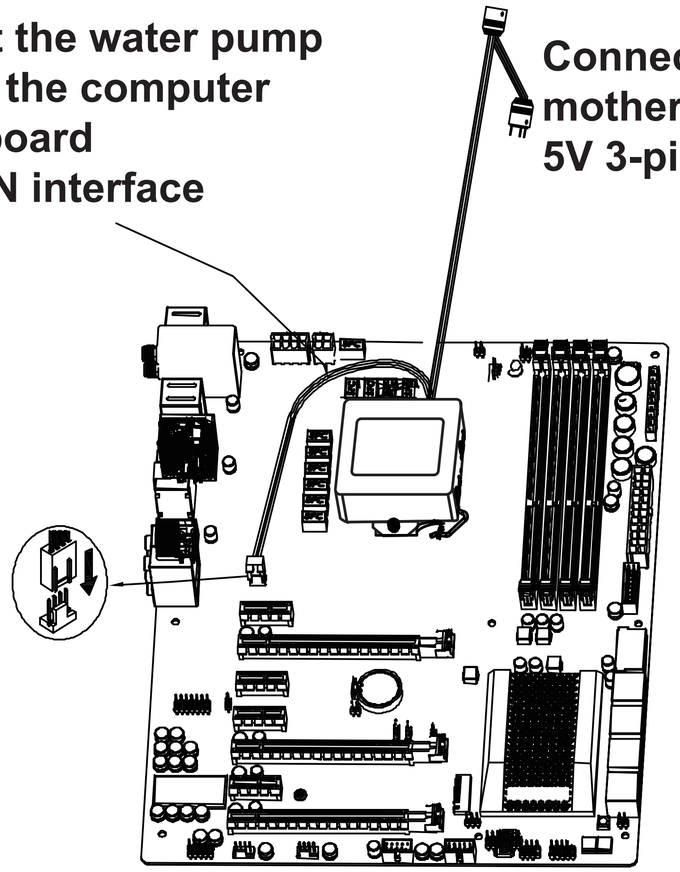
Installation method:
Put AMD mount plates through the motherboard and screw them.



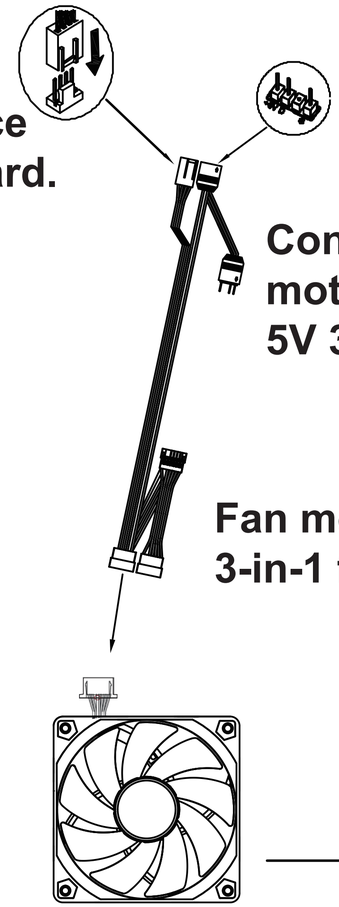
8 Motor Control Cable Connect Precess

Connect the water pump cable to the computer motherboard CPU FAN interface

Connect to the motherboard 5V 3-pin interface.

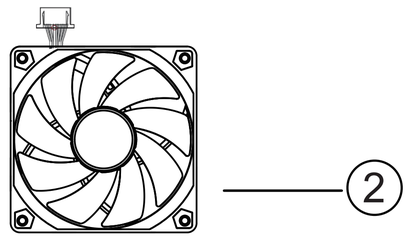


Connect to the SYS FAN interface of the motherboard.



Connect to the motherboard 5V 3-pin interface.

Fan motor cable connection 3-in-1 fan adapter cable.



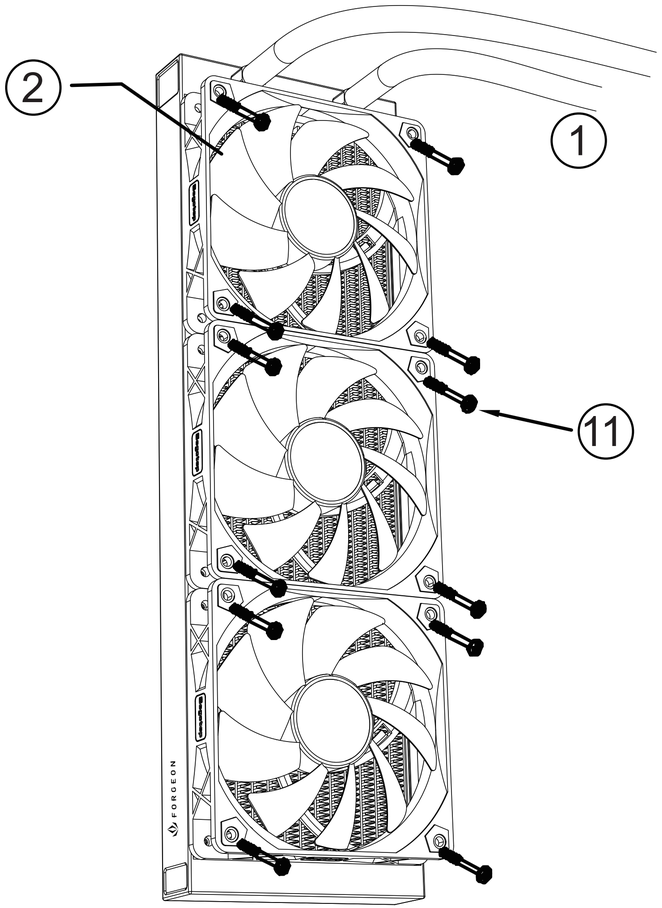
Motor installation instructions:

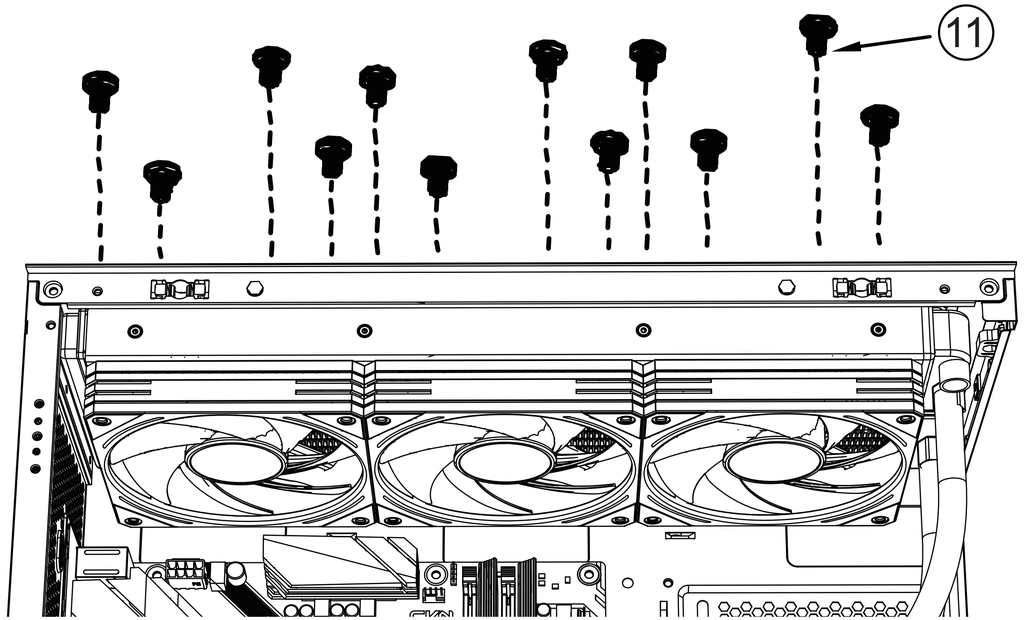
1. Connect the water-cooled heat sink to the CPU FAN interface on the motherboard.
2. Connect the 3 fans with 6pin modular cables and connect the assembled fans to the SYS FAN connector on the motherboard with designated cable.

Lighting installation instructions: (motherboard supports 5V3 pin)

1. Connect the sync cable to the 5V3 pin interface of the motherboard to synchronize and control the light effect on the motherboard.

9 Intel&AMD motherboard





Installation method:

1.Fix fans onto the radiator with fan screws(as shown in pic 1).

2.Fix the radiator into the computer case with screws(as shown in pic 2).
